

MPD Public Safety Cameras

**Public Safety Committee Presentation, February 6th,
2019**

History of Public Safety Cameras in Minneapolis:

- MPD first implemented in 2002, in Downtown Minneapolis.
- Since then additional cameras have been installed throughout the city.
- 212 total fixed MPD public safety cameras citywide (including 17 Verizon cameras) and 15 portable camera trailers.
- Have been very well received by both business community and residents alike.

Why and How Used:

- Provides situational awareness of key areas to address crime, livability and traffic concerns.
- Used in criminal investigations to provide video evidence.
- Portable cameras used for special events and to address emerging crime issues in neighborhoods throughout the city.
- All are placed in public areas (usually street corners) with public views on street lights or utility poles. All are visible to the public.

Camera Types:

- **Fixed: Axis Q6055-E**
- 212 total in all five pcts.
- 360 degrees PTZ
- HD quality
- USIW Wi-Fi or fiber connection

- **Portable Camera Trailers: Mobile Pro Systems**
- 15 total, Diesel, Battery, and Hybrid
- USIW Wi-Fi connection

Retention Period:

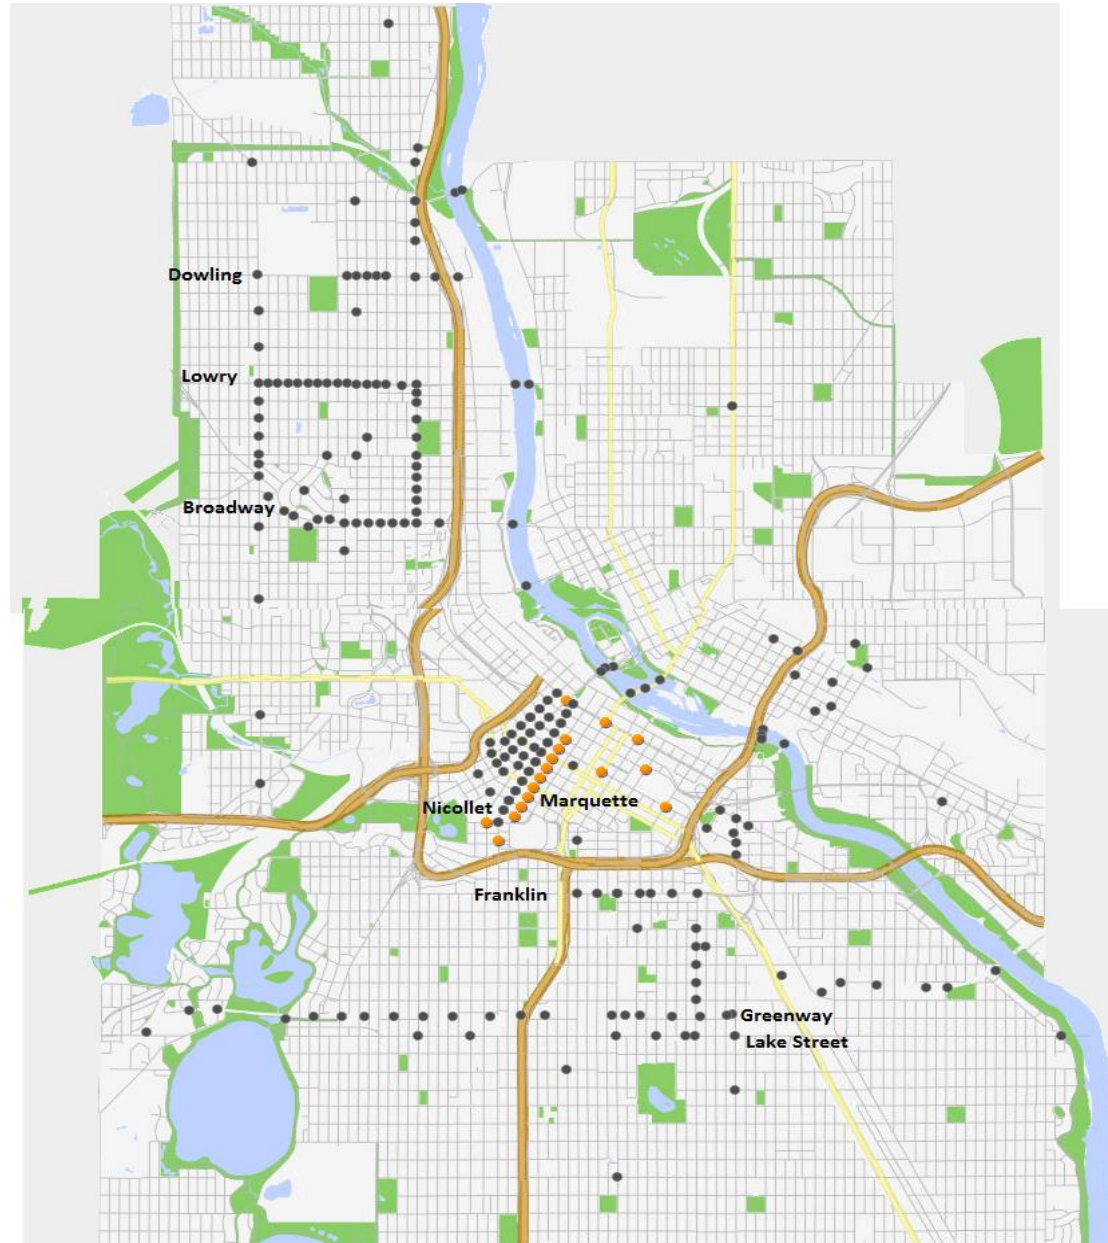

- All video is captured and stored on Milestone (Video Management System) City server.
- State of MN approved **14 Day retention period**
- Video is automatically overwritten and deleted after this period.
- Evidentiary video is downloaded to DVD and held consistent with retention period for that criminal case.

Who can access/view cameras?

- MPD Police Precincts and MPD Strategic Information Center (SIC).
- All video is subject to ***MN Government Data Practices Act*** and considered public information unless part of active criminal investigation.
- Requests for videos is managed by MPD Records unit.

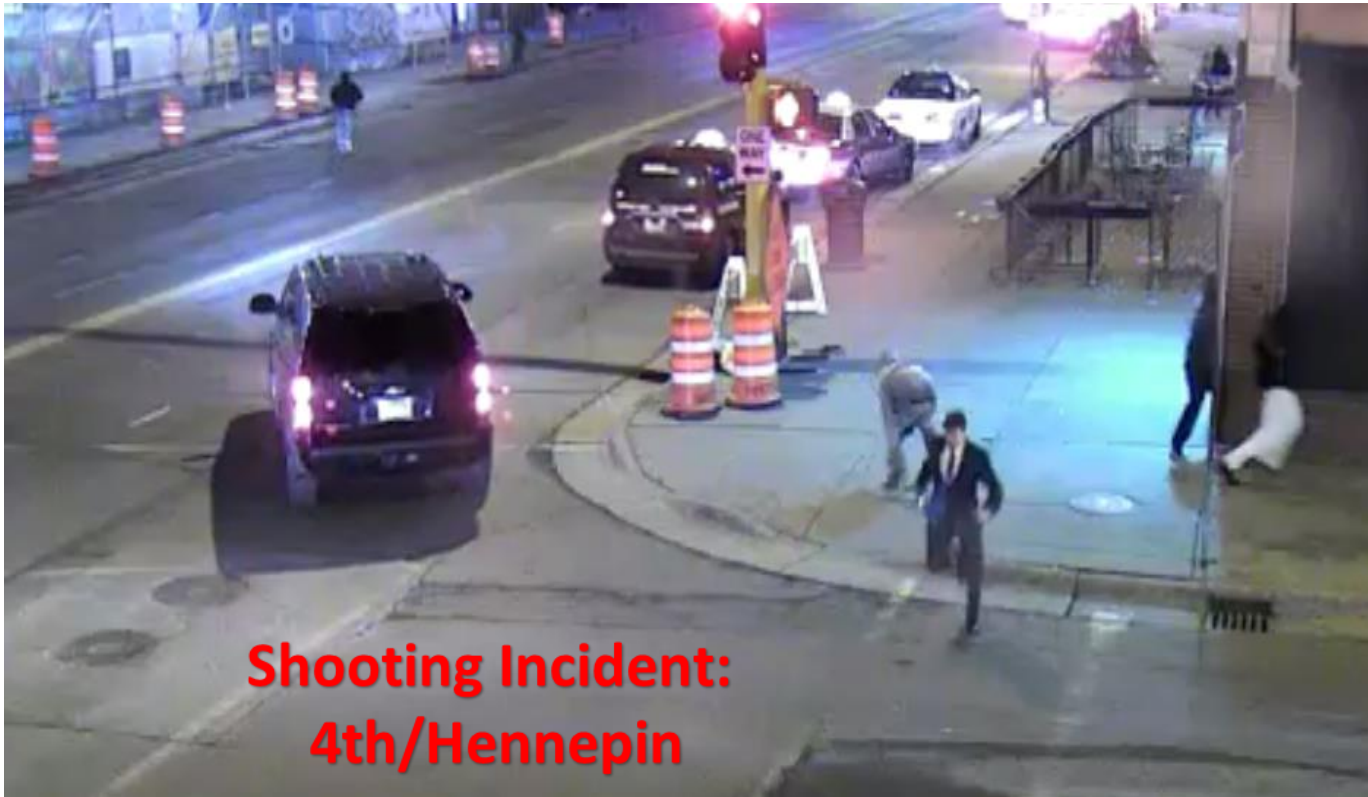

MPD Fixed Camera Locations:

Examples of use- Public Safety Cameras:

Has provided key video evidence in hundreds of robberies, shootings, thefts, vehicle accidents, attempt suicides and other crimes and incidents:

Examples of use- Public Safety Cameras:

Technology implemented for Super Bowl LII:

- **Verizon- 20 Fixed public safety cameras initially provided at no cost for Super Bowl and limited time thereafter. (17 still active)**
 - *New city standard Axis cameras- Video saved on Milestone VMS & city server*
 - *Proposal to now purchase at reduced rate.*
 - *Installed in high traffic/density areas in downtown not currently covered by existing MPD cameras.*

FieldWatch:

- Provides real time location of officers on the street and live video streaming capability to incident commanders during special events.
